

Muhsin A

I'm a web developer based in Bangalore with a passion for creating beautiful and intuitive websites. I'm a self-motivated learner who enjoys staying up to date with the latest technology trends. When I'm not coding, you can find me exploring new places, trying new foods, or in front of my computer.

EXPERIENCE

Springworks, Remote — *Software Engineer*

Nov 2021 - PRESENT

Develop and maintain a React-based business management system for the landscape industry. Ensure functionality and user-friendliness for managing employees, equipment, customer info, work schedules, productivity, budgets, and invoicing.

Techwarelab, Infopart, Kochi — *Software Engineer*

Oct 2019 - Nov 2021

Developed software applications utilizing various frameworks, including ReactJS, Angular 2+ and Ionic. Completed multiple projects from conception to deployment while maintaining high quality work. Collaborated with team members to ensure timely delivery of projects.

SKILLS

HTML, CSS

Strong foundation in HTML and CSS, skilled in converting designs to websites, but limited expertise in complex UI/animation. Focused on JavaScript development for the past 3 years, may need to update UI technology knowledge.

JavaScript, TypeScript

Proficient in JavaScript as primary language for 3 years, with experience in professional and personal projects. Keeps up to date with latest advancements. Currently exploring TypeScript in personal projects.

React Js, Next Js

Skilled in building React projects with secure, fast, and accessible UI components. Experienced in state management with Context API and Redux, and form libraries like Formik and React Hook Form. Familiar with GraphQL (Apollo) and REST (Axios) for Web APIs, and theming libraries including CSS, Styled Components, Chakra UI, Reactstrap, Material UI.

EDUCATION

CAS IHRD, Kartikappally —
B.Com with Computer
Application

2016 - 2019

LANGUAGES

English
Malayalam

Angular 2+

Experienced in building web applications using Angular 2+ for previous clients 2 years ago. May need time to catch up with the latest updates and standards. Confident in ability to build Angular applications and committed to continuous learning and skill improvement.

Node Js

I've also worked with Node.js and have experience building APIs with it. While I may not be up-to-date on the latest industry standards, I'm proficient with Node.js and have used it with both Express and GraphQL in my personal projects. I've worked with both MongoDB and MySQL databases, but I'm still learning about database design best practices and hope to improve in that area.

Others

Proficient in GIT.

Familiar with Python, Docker & Nginx
